If you have not done so already, access the **Settings** page and ensure that eForms is enabled in the **Center Access** section. [Click here](#) for more information. If this setting is not enabled, none of your centers can access eForms in KidKare.

1. From the menu to the left, click **eForms**.
2. Click **Enable Centers**.
3. Use the Center and Status boxes to filter the centers that display.
4. Click  in the **Status** column to enable or disable eForms status for the listed center.

5. Click **Review Changes**.
6. Ensure that your changes are correct.
7. Click **Save**.
