Learning a new software can be intimidating and as a Childcare Provider we understand that you don't have a lot of free time! To help you learn the ropes, we've created a new Getting Started Guide to get you off the ground.

You can go through the steps in any order that works best for you, simply click on the button and walk through the step by step guide.

Note: If you're having trouble completing a flow, try hitting the save button (if one is on the page) or navigate back to the Getting Started Guide and click the button again.
