

About the Attendance Prompt

Last Modified on 01/23/2019 3:14 pm CST

Based on guidance in the [Five Day Reconciliation Memo](#) posted by the USDA, you must show daily attendance separate from meal counts. To comply with this requirement, KidKare does a check when you enter meals to see if a participant has been marked in attendance for the day. If they have not, the system asks you to check that participant in. Simply click Check IN for the participant.

Child must be checked in before recording meals.		<input type="button" value="Check IN"/>	<input type="button" value="Cancel"/>
