 - **Purchased:** This is the amount of milk purchased, based on receipt date.
 - **Required:** This is the amount of milk required based on menus and meal counts.
 - **Written Off:** This is the amount of milk written off for the month. For example, this number accounts for cases in which the milk was spilled, spoiled, and so on.
 - **End of Month Balance:** This is the amount of milk leftover at the end of the month.
 - **Actual Served:** This is the actual total of milk served during the selected month based on meal records. This row only displays if you select **Calculated + Actual** in **Step 4**.

6. Click **Print** and choose a report to print. You can choose **Summary Report** or **Detailed Report**. Both reports download as PDFs.

Note: Any milk served to a child marked with a milk allergy as **Parent Provided** does not show up on the Milk Audit. The Milk Audit only shows substitute milk that the center purchases and supplies. See [Manage Allergies](#) for more details on how to set this up.
