The Income section of Parachute is where you will find both Paid invoices as well as an other income you manually add. You will only see Invoices populated here once they have been marked paid. This section allows you to see all income you have received from Paid invoices as well income that has been manually entered.

To navigate to the Income section:

1. From the menu to the left, click **Accounting**.
2. Click on **Income**. This section allows you to see all income you have received from Paid invoices as well as manually entering in other income.
