The following Reviews reports are available. This list is not comprehensive. To access these reports, click the **Reports** menu, select **Reviews**, and then select the appropriate report.

- **Children Not Seen at Review Report:** This report lists all children not seen at one or more reviews in a specified date range.
- **Projected Visit Dates:** This report lists all upcoming reviews for the next 12 months. It allows you to make any necessary broad adjustments to the provider's scheduled reviews. For more information, see [Track Your Caseload](#).
- **Providers Claiming Special Days:** This report identifies all providers who are claiming any of special situations for a given month. This report runs based on meal and attendance data in your database, which means that you cannot analyze manual claims with this report. For more information, see [Identify Who to Visit and When](#).
